

## Simplify Subscription Management Process for your customers

Enable your customers to manage everything about their subscriptions using our omnichannel subscription management platform anytime, anywhere.

Are you trying to take your subscription business into your customer's mobile and looking for a way to enable them to self-manage their subscriptions?

Is your productivity going down when it comes to answering queries on invoice, making payments or buying/renewing subscriptions for your customers?

Are your B2B customers able to self-manage their subscriptions based on a negotiated contract?

**Acuiti Subscription  
Manager is all that  
you need!**

## Acuiti Labs is proud to present Acuiti Subscription Manager

A Cloud native, mobile ready one stop solution, that can complement your SAP BRIM and Subscription Billing to enable your end customers (both B2B and B2C) to manage their subscriptions.
