

Acuiti Subscription Manager from Acuiti Labs Now Available on SAP® Store

By integrating with SAP S/4 HANA®, Acuiti Subscription Manager delivers a mobile-ready one-stop solution that complements SAP Billing and Revenue Innovation Management and subscription billing to enable end customers — both B2B and B2C — to manage their subscriptions

LONDON and ATLANTA ([PRWEB](#)) October 11, 2022 -- Acuiti Labs Limited today announced that its [Acuiti Subscription Manager](#) is now available on [SAP® Store](#), the online marketplace for SAP and partner offerings. Acuiti Subscription Manager integrates with SAP S/4 HANA® and provides customers with ease of effectively managing their subscriptions. A user-centric omnichannel app, for Web, iOS and Android platforms, Acuiti Subscription Manager provides a self-serve platform for customers to manage subscriptions and invoices, make payments, raise requests, and more. Tightly integrated with SAP Backend service, Acuiti Subscription Manager comes with B2B agreement functionalities and can be deployed in the cloud or on-prem.

The omnichannel cloud-native, one-stop solution, complements SAP Billing and Revenue Innovation Management and subscription billing, enabling end customers to effectively manage their subscriptions — both B2B and B2C — using the Acuiti Subscription Manager solution platform anytime — anywhere.

What is Acuiti Subscription Manager?

Acuiti Subscription Manager is designed to resolve challenges that customers commonly face when using multiple subscriptions. In both mobile or web applications, customers can view their subscriptions, invoices, payments made, payments due, payment dates, latest offers and statements on their own for complete clarity — unlike the traditional way of subscription management.

A free 30-day trial is available on SAP Store. Register on the portal to gain access to all the benefits of the application.

Acuiti Subscription Manager enables customers to:

1. Access all subscription-related information from a single place
2. Buy, change, and manage the lifecycle of subscriptions
3. View bills, make payments and set up recurring payments
4. Define customer-specific pricing contracts (B2B for subscription billing only)
5. Subscription revenue forecast for business (subscription billing only)

SAP Store, found at [store.sap.com](#), delivers a simplified and connected digital customer experience for finding, trying, buying, and renewing more than 2,000 solutions from SAP and its partners. There, customers can find the SAP solutions and SAP-validated solutions they need to grow their business. And for each purchase made through SAP Store, SAP will plant a tree.

Acuiti Labs is a partner in the SAP® PartnerEdge® program. The SAP PartnerEdge program provides the enablement tools, benefits, and support to facilitate building high-quality, disruptive applications focused on specific business needs — quickly and cost-effectively.

About Acuiti Labs
