

### SAP Solution:

- Aeronautical Billing

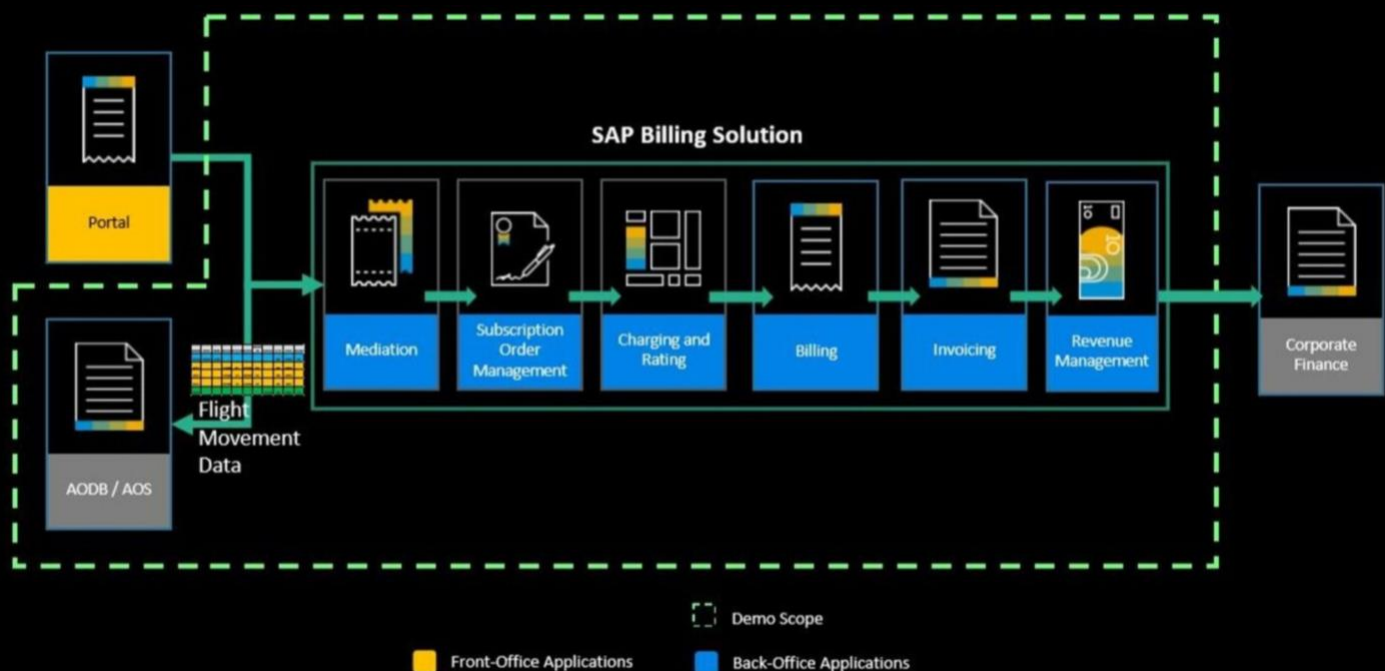

### Challenges:

1. Reduce Revenue Leakage
2. Manage Complex real time pricing requirement
3. Manage partner revenue sharing, dispute management/collection management

### Acuiti Labs resolved the challenge:

1. Deployed CX Commerce with SAP BRIM integrated with backend ERP system
2. Using SAP BRIM, we were able to capture all the events related to airport
3. Correct consumption calculation helped to eliminate revenue leakage problem
4. Able to handle scenarios like providing discounts based on aircraft nature & slab basis.

### Solution Architecture:

### Benefits:

1. Provided a highly scalable and high-performance BRIM system.
2. BRIM system was able to handle large volume of data and complex pricing
3. Decreased operational costs of billing and collections as percentage of revenue.
