Acuiti Labs' Official Newsletter | Q4 - 2022

A Glimpse of our participation in the largest BRIM Event as the Platinum Sponsor in the Windy City-Chicago!

The event was held on 26 - 27 October 2022

We are excited and proud to share that the BRIM Conference was a huge success! We had a great time at this event and would like to thank all the valuable attendees, speakers, sponsors and volunteers who participated and made this event successful. The conference was organized by SAP and TAC Events in the last week of October 2022, where we were the only platinum sponsor and had a prominent presence in the event!

It was a great opportunity for us to network with Industry leaders from top-tier organizations focused on O2C. Our booth was the place to be, we showcased our technology and product offerings from the best and the biggest booth at the event.

Acuti Sports Week 2022

In a rare display of being highly competitive for each medal in the offering but not leaving the true spirit of the sports, Acutians had a great week full of fun, excitement, and togetherness celebrating the Annual Sports Week in the last week of November. During the week we saw some closely contested games of badminton and cricket where finally #YASH, #SADIYA in Badminton, and #SMASHERS in Cricket finally made it to the podium.

It was a well-attended event by Acutians where we saw Manoj and Beatrice graced the event with their presence on the final day.

Client Visit

A wonderful evening with our valued customer and our team. A big thank you to all those involved in the process and to our client for allowing us this whole opportunity.

We are hiring
